

**Most product  
research are  
unstructured,  
slow and biased**

I built an AI Product  
Research Copilot to fix  
this.

**Product Research Copilot 2.0**

# Problems

1

Research  
scattered across  
docs

2

Inconsistent  
frameworks

3

Decisions depend  
on who speaks  
loudest

4

Hard to compare  
markets or  
products

# Research fails not due to lack of data, but lack of structure

We Introduce

Product Research Copilot

Input → Structured Insight → Decision Clarity

# Process Involved

# Solution

- Faster decisions
- Fewer debates
- Sharper positioning
- Repeatable across industries

Demo Video will be Available in Upcoming  
Post
